

The Poland subsidiary is headed up by executive director Michał Małkowiak, who will be speaking at the Energy Storage Summit CEE, taking place next week on 26-27 September in Warsaw.. Małkowiak told ...

On November 27, the National Energy Administration released its No. 5 announcement for 2020, approving 502 energy industry standards. Seven of the announced standards relate to energy storage, covering areas ...

This project represents China's first grid-level flywheel energy storage frequency regulation power station and is a key project in Shanxi Province, serving as one of the initial ...

Energy storage developer Pacific Green has agreed to acquire two large-scale in-development battery energy storage system (BESS) projects in Poland, Europe. The acquisition of two 50MW projects totalling 400MWh of ...

However, this also means that the draft parameters could be particularly harmful for BESS with four-hour storage duration. "In case of two-hour BESS, developers have anyway been choosing derating factors around 40 ...

July 28, 2022: Polish state energy firm PGE has received a preliminary licence from regulators to build a 200MW battery storage facility in the country as part of a commercial hybrid energy storage (CHEST) project, the company said on ...

Energy Insider: Major Sodium Energy Storage Station Enters Operation, Battery Giant CATL Taps Into Shipping -Beijing aims to make EV charging "green", China generated over one-third of wind and solar power in ...

The energy storage projects we encounter on the Polish market are of great diversity, ranging from battery storage facilities with relatively small total installed capacities, through contracts focusing on the joint development ...

The auction was held by PSE on 14 December 2023 and ended in the sixth round. As a result, contracts with 159 capacity market units were concluded, including 111 physical units from Poland and 48 units from the ...

Battery storage projects from Hynfra Energy Storage and OX2 totalling 130MWh have won contracts in energy auctions in Poland this week. A capacity market auction for 2027 from transmission system operator Polskie ...

Renewable energy developer and independent power producer (IPP) Greenvolt won 1.2GW of 17-year contracts for six battery energy storage system (BESS) projects it bid in, the company revealed on the same day.

Three new energy storage facilities with a total power of 7 MW and capacity of 19 MWh will be built in areas particularly exposed to power outages and deterioration of grid quality parameters, i.e. in the Podkarpackie ...
