

# New market polandsa energy storage project

Will Poland lead Eastern Europe's battery storage market?

Poland is set to lead Eastern Europe's battery storage market, with 9GW offered grid connections and 16GW in the capacity auctions.

What happened at Poland's capacity market auction?

The results of Poland's recent capacity market auction have been revealed, with a clearing price significantly lower than the previous years and IPP Greenvolt saying it won the lion's share of around 1.7GW of BESS awarded contracts.

Will the capacity market kickstart the large-scale Bess market in Poland?

The capacity market is set to kickstart the large-scale BESS market in Poland by providing the basic building blocks of the business case, according to numerous delegates interviewed by Energy-Storage.news at Energy Storage Summit Central Eastern Europe (CEE) 2023 in Warsaw in September.

How will intermittent generation affect Russia's electricity market?

Driven by falling costs of renewables, the closure of coal generation and the need to rapidly find alternatives to Russian gas, the accelerated installation of intermittent generation will lead to a rapid transition of their electricity markets.

How can we open the market for battery storage?

Targeted support mechanisms can open the market for battery storage, especially when providing revenue certainty, a common barrier for storage in less open markets. In the longer term, policy makers should focus on opening balancing markets to storage assets, in which owners would be able to monetize their inherent flexibility.

Three new energy storage facilities with a total power of 7 MW and capacity of 19 MWh will be built in areas particularly exposed to power outages and deterioration of grid quality parameters, i.e. in the Podkarpackie ...

BYD Renewable Energy Business Development Director Mr. Guo Bin said, "This will create a lasting change, bringing a huge market share to new energy companies. We believe that this project will be able to provide valuable ...

Renewable energy developer and independent power producer (IPP) Greenvolt won 1.2GW of 17-year contracts for six battery energy storage system (BESS) projects it bid in, the company revealed on the same day. It ...
