

Unlicensed and unethical. Potential clients should be aware of my family's terrible experience with Nexen Energy Solutions. Initial Deception: My father, unknowingly, was steered into purchasing superfluous panels. Instead of a straightforward fix for a tripped circuit in his existing panels, he was advised to buy new ones.

Sunlight is an incredible source of energy for the earth. Solar power is the technology used to harness the sun's energy and make it useable. Today, technology produces less than one-tenth of one percent of global energy demand.

The amount of money your household will save on power bills by going solar is affected by a number of factors, including: Your energy consumption and the size of your solar power system - if you use more power than your system is capable of producing, your savings will be reduced. This can be avoided by choosing the right-sized system for your needs.
