

The Middle East and Africa (MEA) smart home devices market saw its value increase 6.1% year on year during the first quarter of 2021, according to the latest insights from International Data Corporation (IDC). The global technology research and consulting firm's Worldwide Quarterly Smart Home Devices Tracker shows that the MEA market's value ...

In Nigeria, the energy sector requires just as much investment to efficiently service the needs of its citizens; investments focused on renewable energy solutions. According to Abubakar Aliyu, Minister of Power, Nigeria presently supplies 8,000MW of electricity, comprising 5,000MW on-grid and above 3,000MW of industrial capacity off-grid.

Following the latest best practices in the Fleet Management Sector, Energy Smart Nigeria prefers using high end to end encryption technology approaches to make fleet fueling easy and flexible, such as Financial Loading Portal for Electronic Prepaid Cards, to have control of your fuel, reduce fuel theft, reduce paper work, and get details of usage online-real-time
