

What is National Institute of solar energy (Nise)?

The National Institute of Solar Energy (NISE) is a research and development organization in India, focused on the field of solar energy. Established in 2013, NISE is an autonomous organization under the Ministry of New and Renewable Energy (MNRE).

What does Nise do?

NISE conducts research on various topics related to solar energy such as photovoltaics, solar thermal system and solar Resource assessment. The organization also provides technical assistance to government agencies and private organizations, and plays a key role in the implementation of national solar energy programs in India.

Can Macao increase solar energy?

The Macao government also sees an opportunity to increase solar energy. To encourage the installation of PV systems, officials passed a set of safety and installation regulations in 2015.

What does Nise stand for?

Established in 2013, NISE is an autonomous organization under the Ministry of New and Renewable Energy (MNRE). The organization's main goal is to conduct and promote research and development in the field of solar power in India, as well as act as a national resource center for solar energy. It is headquartered in Gurgaon, Haryana.

Does Macao have a photovoltaic energy contract?

The regulations require investors to enter into a 20-year contract for the purchase of photovoltaic energy with Macao's sole energy service provider, Companhia de Electricidade de Macau (CEM). Essentially CEM will purchase the electricity produced to ensure investors profit within a reasonable period.

Can I contact Nise & MNRE?

S. No For any queries, please contact us between 10:00 to 17:30 on weekdays: National Institute of Solar Energy (NISE), an autonomous institution of Ministry of New and Renewable (MNRE), is the apex National R&D institution in the field Solar Energy.
