

Is the Norwegian solar energy industry growing?

The report looks at the Norwegian PV industry and the conditions it faces both nationally and internationally. The report shows that the Norwegian solar energy industry is growing and that it is highly varied. Strengths in knowledge development, and barriers for market formation and mobilization of financial resources are identified.

Do companies know about solar energy in Norway?

During interviews, some firms however, point out that they experience a limited attention and knowledge about PV. As a general indicator of attention to PV, we searched news media and parliamentary databases to observe the frequency of mentioning of solar energy compared to other renewable energy technologies in Norway.

Who installs solar panels in Norway?

Norwegian solar panel installers - showing companies in Norway that undertake solar panel installation, including rooftop and standalone solar systems. 65 installers based in Norway are listed below. Germany, Denmark, Finland, No... Fred. Olsen Renewables Brazil, South Africa, Norway,... Germany, France, Italy, Norwa...

How will solar energy impact Norway?

Together with wind, solar energy will account for most of the replacement of fossil fuels. Norway is closely linked to the European energy market. Regardless of the growth of solar in Norway, the development in the EU will have consequences for Norwegians.

Are Norwegian solar panels eco-friendly?

The ecological footprint of solar panels made with materials from Norway is therefore extremely small. REC Solar's factory in Fisk&#229; in southwestern Norway has even been awarded a certificate for production of the world's cleanest silicon. Not only is Norwegian silicon production the world's cleanest, it is also the world's most energy efficient.

What are the regulations for the Norwegian solar PV industry?

Following regulations for the Norwegian solar PV industry is critical. The supply companies acknowledge that any equipment that is delivered to Norway should be translated in a Scandinavian language with a Norwegian user manual for installation. Other regulations refer to CO2 footprint.
