

Can Brunei achieve 200 MWp of solar energy by 2025?

The Sultanate also targets achieving at least 200 MWp of solar energy capacity by 2025. This project also supports the Brunei Climate Change Secretariat's strategies to increase renewable energy adoption and reduce carbon emissions.

Does Brunei have a sustainable future?

Brunei is targeting 30% renewable energy in total power generation mix by 2035, with 200 MWp of solar energy by 2025. The launch event also saw the release of Hengyi's 2023 ESG Report, which highlights their progress in environmental sustainability, social responsibility, and governance.

What is Sinar & how will it impact Brunei?

The solar energy generated through Project SINAR will not only support the energy needs of Hengyi Industries' Petrochemical Refinery but also contribute to Brunei's national power grid when required, enhancing energy sustainability across the nation. Stage 1 of Project SINAR is targeted to be fully completed at the end of April 2025.

Does Brunei have a solar system?

Berakas Power Company's first solar PV system project began last December after the rooftop of its head office was installed with 320 solar panels. The vast majority of the country's electricity is generated by gas-powered plants, with the energy sector contributing 80 percent of Brunei's carbon emissions.

Will Brunei expand its solar energy project?

He said Brunei will expand its solar energy project, which started in 2011 with the \$20 million Tenaga Suria Brunei 1.2 MW solar power plant in Seria. Local companies such as Brunei Shell Petroleum (BSP) and Berakas Power Company have already installed solar photovoltaic (PV) technology earlier this year, the minister added.

Can a solar farm be developed in Brunei?

The new solar farms may be developed through public-private partnerships as the ministry seeks to reduce the government's financial burden. Brunei has set a target of generating 100 MW of solar energy by 2025 as part of the government's initiative to slash greenhouse gas emissions by 20 percent over the next 10 years.
