About NRG Systems. NRG Systems is the global leader in wind and solar resource measurement and intelligence. Their hardware, software, and related services empower many of the world's largest developers to make informed decisions and improve efficiency at ...

NRG Flare is a portfolio of solar solutions that provide the data you need to successfully plan and operate your utility-scale PV projects. Encompassing everything from standardized hardware to data management tools and installation and maintenance support, our turnkey systems ensure reliable and repeatable performance, every time.

Solar Systems. NRG's Flare solar portfolio includes two turnkey solar resource measurement systems - the Flare SRA System for the early prospecting and formal pre-construction resource assessment of utility-scale PV projects, and the Flare SRM System for performance monitoring per IEC 61724-1:2017.. Standardized for a repeatable experience

NRG Systems announced today that its longtime partner, Mumbai-based RK Systems, has supplied and erected India's tallest lattice met tower. Commissioned June 2017 in Southern India, the tower stretches 150m high and features an array of NRG products, including 40C anemometers, 200P wind vanes, 110S temperature sensors, a BP20 barometric pressure ...

Wind. NRG Systems has been designing and manufacturing wind measurement solutions for over four decades. We pioneered the complete system approach to wind resource assessment and have gone on to apply the concept of turnkey solutions to all stages of the project lifecycle, including power performance testing, wind plant optimization, and monitoring.
