

Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

Are the Pitcairn Islands Green?

Pitcairn Islands, a group of five islands with a total area of 47 km<sup>2</sup> and which constitute one of the most remote archipelagos in the world, turn to safer, greener energies that best meet the needs of the population. Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy.

How many islands are in the Pitcairn Islands?

The Pitcairn Islands form the southeasternmost extension of the geological archipelago of the Tuamotus of French Polynesia, and consist of four islands: Pitcairn Island, Oeno Island (atoll with five islets, one of which is Sandy Island), Henderson Island and Ducie Island (atoll with four islets).

How did the Pitcairn Islands make money?

The Pitcairn Islands issued their first stamp in 1940. These became very popular with stamp collectors, and their sale became the dominant source of revenue for the community. Profits went into a general fund which enabled the island to be mostly self-sufficient.

Who is Octillion?

Since 2009, with deep roots in California, Octillion continues to drive EV innovation forward. We do so by creating customized, value-driven battery systems for clients -- at mass scale -- to drive the clean energy shift to electrification across transportation, industrial equipment, and the grid.

How to get to Pitcairn Islands?

Totegegie Airport in Mangareva can be reached by air from the French Polynesian capital Papeete. There is one 6.4-kilometre (4 mi) paved road leading up from Bounty Bay through Adamstown. The main modes of transport on Pitcairn Islands are by four-wheel drive quad bikes and on foot.

Octillion is a Tier 1 supplier of advanced energy storage systems focused on the electrification of passenger cars, trucks, and buses. We have delivered more than 300,000 electric vehicle ...

Octillion Power Systems focuses on overcoming obstacles such as driving range, EV battery life, high costs, safety, reliability, and end-of-life recycling of batteries. The company specializes in ...
