

The Orsted vision is a world that runs entirely on green energy. Orsted develops, constructs, and operates offshore and onshore wind farms, solar farms, energy storage facilities, renewable hydrogen and green fuels facilities, and bioenergy plants.

Orsted is a U.S. leader in offshore wind energy with approximately 3 gigawatts in development and operates America's first offshore wind farm, located off the coast of Block Island. Orsted has a total U.S. land-based capacity of 5 gigawatts across wind, solar, storage technologies and e-fuels.
