Product Details. Compact, All-in-One UPS System: With Dual AC and DC Output, the Micro 350 is the only UPS system you'll need to manage all your backup power systems. Durable NEMA 3R Construction: With an outdoor-rated construction and an operating temperature range between -40 to 165°F, the Micro 350 is suitable for diverse environments. Automatic Voltage Regulation: ...

A truly outdoor UPS system has many distinguishing characteristics, including conformal coated printed circuit boards (PCBs) which protect against exposure to moisture and dust, and carefully selected components

to operate reliably in extreme temperatures. In addition, Alpha's products and solutions are designed to meet each customer's unique ...

The Alpha UPS family includes systems designed for traditional indoor applications and systems designed for more challenging rugged and outdoor applications. Alpha, an EnerSys Company, offers a complete line of AC and DC powering solutions to ...

In the Ultron UPS family, three-phase online UPSs have power ratings of up to 4000 kVA, perfect for data centers, industrial facilities, and more. Three-Phase online modular uninterruptible power supply systems from the Modulon UPS ...

The HTU UPS is a durable, high operating temperature UPS, ideal for outdoor applications. It is a combination of an inverter, battery charger and AC transfer switch in one complete system with a peak conversion efficiency of 88%. It has an overload capacity of 300% for 20sec to support tools and equipment longer. The HTU features power factor corrected, sophisticated multi-stage ...

All of our outdoor UPS systems share common features: they are designed to be durable, with enclosures that protect against weather and other outdoor conditions; they are self-contained, meaning all components are housed within the unit for easy deployment; and they are versatile, able to be used in a variety of settings where temporary, reliable power is needed.

1.5kVA/1.2kW/120V Battery Backup for Applications in Low- and High-Temperature Extremes This SmartPro® line-interactive SMART1524ET UPS system with hardwire AC input/output offers a wide operating temperature range and provides constant and reliable backup power to critical equipment in harsh environments, including outdoor and industrial equipment.

OUTDOOR UPS SYSTEMS WITH SSG INDUSTRIAL WIDE-TEMP UPS, 1.5 to 3KVA with NEMA CABINETS. READY TO INSTALL. UPS Solutions SSG pre-configured NEMA 3R-rated UPS systems provide the ideal solution for outdoor and indoor use. The UPS enclosures are available in various sizes.

A Vorp Energy Outdoor UPS battery backup system is intended to provide power to surveillance, communications, and other devices during periodic gaps or outages in regular, grid-tied power sources. Whether the outage is regular and ...
