Are solar panels imported or re-exported in Cambodia?

During the same period,the country's solar panel imports rose rapidly and doubled to USD272 million but the volume was significantly lower than solar panel exports (Figure 1). This trade pattern suggests that a substantial portion of Cambodia's solar panel exports may have been assembled domestically rather than imported and re-exported.

Why are solar panels becoming a trend in Cambodia?

VansopheaktraOdorm Tep and Chunyu Yang For decades, Cambodia's high economic growth has been fueled by strong garment exports, supported by tourism. However, a new trend in the country's exports has emerged in the past two years - a sharp increase in electrical and electronics (E&E) manufacturing products, particularly solar panels.
