Hello All, I have an AC200L and 2 B300"s. I have been charging them using a Westinghouse gas generator with 3600W / 4650W peak output. When all 3 units are connected together in series using the large supplied cables, they all charge simultaneously through the AC200L. I was having problems (and still am) when I try to charge all 3 units through the ...

Unleash Endless Possibilities with AC500 plus B300S: a high-watt solar-powered generator combo that's hard to find with most portable power station brands. The AC500 is designed to be 100% modular, relying on the external B300S battery to store energy and provide maximum flexibility to customize its capacity up to an enormous 18,432Wh.
