

Is PetroChina building a large tank farm in Guangdong?

REUTERS/Kim Kyung-Hoon/File Photo Purchase Licensing Rights SINGAPORE, Sept 2 (Reuters) - PetroChina has finished building a large tank farm for its greenfield refinery and petrochemical complex in southern China's province of Guangdong, the state-backed Shanghai Petroleum and Natural Gas Exchange said in a report.

Why is underground gas storage important for China's Energy Security?

Therefore, accelerating the construction of underground gas storage is an important strategic demand to ensure China's energy security. Based on the above analysis, the use of deep underground spaces for large-scale energy storage is one of the main methods for energy storage.

What is the priority development direction of energy storage in China?

The utilization of salt rock for large-scale energy reserves will be the priority development direction of energy storage in China. (3) Salt rock in China is a typical bedded rock salt with thin thickness, high impurity content, and many interlayers.

Which natural gas storage facilities are used in China?

At present, China's large-scale natural gas storage facilities mainly include depleted reservoirs, salt caverns, and LNG storage tanks. According to international practice, it is only once the storage of working gas reaches about 15% of annual consumption that a safe supply of natural gas can be ensured.

Arifin said that Indonesia and China have a good foundation for cooperation in areas such as energy and mineral resources, and have achieved mutual benefit, win-win results and common development. At present, the ...

Group energy storage, interference, and deflection fracturing are promoted, synchronous and asynchronous huff and puff modes and technical policies are optimized, and the synergistic energy supplement effect of ...

Specifically, PetroChina will transfer its major oil and natural gas pipelines and some of its oil and gas storage facilities and LNG import terminals. Sinopec Corp. will transfer ...

In 2024, PetroChina, one of the world's largest oil and gas companies, stands at a pivotal point in its history. As a key player in China's energy sector and a subsidiary of the state-owned China ...
