

Pixii's compact BESS is fully integrated, enabling you to get the most out of new or existing solar installations, maximizing self-consumption. With smart functionalities like time shifting and peak shaving, you'll reduce your energy bills by storing energy during off-peak hours.

The Pixii BESS enables fast charging even in areas with weak grid infrastructure, while optimizing energy use and generating revenue. Pixii's modular and scalable BESS is designed to grow with your business, keeping investment costs low.

The Pixii BESS enables fast charging even in areas with weak grid infrastructure, while optimizing energy use and generating revenue. Pixii's modular and scalable BESS is designed to grow with your business, keeping investment costs low. With smart functionality like time shifting and peak shaving, you can store energy during off-peak hours ...

BESS and EV infrastructure: challenges and opportunities. Show all. Upcoming Exhibitions and Events. Discover where Pixii will be presenting its latest energy storage solutions. Join us at these events to learn more about our technology and meet our team. 2025 Exhibitions and events.

Frequency support: The quick and accurate power delivery capabilities of BESS makes them perfectly suited for providing rapid power balancing for the grid and ensuring a stable grid frequency; Energy arbitrage: ...

Designed for the dynamic needs of today's energy market, the PowerShaperXL family (PowerShaper XL, PowerShaper XL Indoor, PowerBase XL) delivers unparalleled performance and reliability for energy-oriented ...

Pixii's BESS provides a fully integrated solution that seamlessly distributes power from solar PV panels, AC/DC coupling, and other energy sources, storing excess energy for later use. It ensures reliable power supply while optimizing cost savings through peak shaving and load management. ... Pixii AS is committed to protecting and respecting ...

The United States is undergoing a profound transformation in its energy landscape, with increasing demand for distributed BESS to support electrification and decentralized power systems. Pixii's European-quality products, combined with cutting-edge modularity, resilience, and security, are the perfect solutions for this transition.

A bi-directional BESS with smart functions. Pixii's battery energy storage system offers a range of advanced functions, including voltage support, phase balancing, and active and reactive power compensation. The BESS is modular and easy ...

The PowerShaper PoleTop from Pixii, is an IP55 complete modular energy storage system. ... The PowerShaper PoleTop BESS solution is available as either a single or double cabinet solution, with each cabinet delivering up to 30kW of power conversion and 72kWhr of energy with Polarium's latest Gen 6 9.1kWhr NMC batteries providing high energy ...

Pixii's monitoring software keeps you informed, and with 24/7 support and advanced cyber security you are fully protected. Pixii has created a battery energy storage system that gives unparalleled protection and peace of mind. Explore the innovative features that make Pixii's BESS the safe choice. 48 volt

Historically, BESS has been used for one or two high-power ancillary services in the Nordics, but with changing market dynamics, BESS owners should explore dynamic revenue value stacking in more energy-intensive frequency markets, in wholesale electricity trading, and through participation in local flexibility markets in order to maintain their ...

Background. Greenbat is a Slovakian company that specializes in innovative energy storage solutions, focusing on the design, implementation, and operation of battery energy storage systems (BESS). With a mission to enhance grid flexibility and integrate renewable energy sources, Greenbat has achieved a significant milestone by pioneering the first battery ...

Pixii has signed a memorandum of understanding with SCSK and Kawamura Electric to launch a distributed integrated energy management system. This represents Pixii's entry into the Japanese market. Conventional BESS systems have consisted of a combination of existing equipment and custom-made equipment tailored to requirements.

Join us as we uncover how BESS technology revolutionizes energy management for homeowners, offering unparalleled versatility and freedom. From saving cost to generating income, this webinar unveils the practical benefits of BESS in ...

Das BESS von Pixii erfüllt die Anforderungen für Programme wie das KfW-Förderprogramm, verschiedene bundesweite und landesspezifische Subventionen sowie das Netzentgeltbefreiungsprogramm in Deutschland. In Österreich erfüllt Pixii die Anforderungen für nationale Förderprogramme. Ein Beispiel ist ein 36-Millionen-Euro-Programm, das ...
