

Who founded Raychem?

The Raychem Corporation was founded and headquartered in Menlo Park, California, in 1957 by Paul M. Cook, James B. Meikle, and Richard W. Muchmore. Led by Cook and second-in-command Robert M. Halperin, Raychem became a pioneer of commercial products realized through radiation chemistry.

What is Raychem technology?

**F PROVEN TECHNOLOGY** Our Raychem technology is based on specially-formulated thermoplastic polymers to create optimized solutions for various industry applications. The compounds for these materials are designed, selected, and mixed in TE's own compounding factories. Sophisticated process control

What is nVent Raychem?

nVent Raychem is a leading provider of RAYCHEM heat trace cable and solutions for infrastructure, industrial, commercial and residential buildings.

Who is Raychem from TE Connectivity?

**RAYCHEM TECHNOLOGY** For more than 60 years, Raychem from TE Connectivity (TE) has supported the delivery of power for a wide variety of industries, applicatio

Does TE Connectivity sell Raychem products?

TE Connectivity sells the other original Raychem products (shrink tubing, wire and cable, SolderSleeve Devices, etc.) under the Raychem brand name. The Circuit Protection business unit, maker of PolySwitch devices, was sold to Littelfuse Corp. in 2016. Elotouch was sold to a private equity firm several years prior to that.

Who were Raychem's CEOs?

Those CEOs were Paul Cook (Founder), Bob Saldich (a long-time Raychem executive, who also ran a Raychem subsidiary, RayNet) and Dick Kashnow, who was responsible for the sale of Raychem to Tyco. At the time of the sale the company had reached sales exceeding \$2 billion and was operating in over 60 countries globally. [citation needed]

Raychem RPG has a complete system of cable accessories up to 245 kV. Long term performance of Raychem heat-shrinkable materials is demonstrated by the well-proven Power Accessory System. It is a trusted name amongst major stakeholders in ...
