

Portable energy storage power supply price list

How much does a portable power station cost?

The price of portable power stations can be difficult to pin down, as they fluctuate substantially not only depending on the proximity of a retailer holiday like Amazon Prime Day or Black Friday, but also between retailer sites. For some of the portable power stations in my test, "list price" would vary between retailer sites by up to \$400.

Who makes the best portable power station?

Bluetti is another one of those portable power station companies that make a power station for just about every scenario and every size. However, while they make very good power stations for nearly every person and need, the one thing they do best is emergency power.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.
