

Engie Africa launched a pilot project earlier this month to provide purified water, power and Wi-Fi to off-grid communities in Kigali, Rwanda. The project is being developed through a partnership between Engie Energy Access and OffGridBox, a water and solar company founded in 2016 with offices in Rwanda and the United States.

OffGridBox has installed 30 boxes across East Africa, serving 50,000 people. Eighteen of these are in rural villages in Rwanda, including one at a refugee camp and another powering a health clinic. In most locations, customers have been ...

The agile and modular architecture can also combine with other individual modular subsystems including cooling, service, and IT containers for a complete containerized data center. Per customer requirements, Delta offers various design options and ...

Moving a 40ft container is no small task! Our team of seven began the journey in the free trade zone in Kigali (where the containers are currently stored) at 10 in the morning and the mission was completed by 4pm that afternoon. A crane was used to move the container from its storage spot in Kigali to the back of a 40foot flat-bed truck.
