Reliable, efficient, and high performance power. Providing power from 10-45 kVA, all our Powerpacks boast the quality you'd expect from JCB. So that when you choose from JCB's Powerpack range, you can deliver the power and confidence you need, wherever you operate. Zero noise. Zero emissions. Zero Compromise. Hybrid fuel savings.

The HY11 power pack is the most complete of our production range because it uses the H01 body prepared with a cavity number higher than H00. This means greater versatility offered by the different configurations obtainable. It can be ...

The HY Series Electric Hydraulic Pumps (HY-115, HY-230, HY-400) offer exceptional versatility, accommodating multiple voltage inputs (115V, 230V, and 400V respectively) to suit various power sources and operational environments. Engineered for high performance, they provide reliable hydraulic power for torque tools and equipment that demand robust force.

The valve mounting cavities are machined according to the SAE standard 8 or 16 UNF, while the connecting doors are threaded 1/4" BSP. On request, threads are available in 3/8" and in SAE/NPT format. One-way pumps can be used with G. 0 or G. 1 from 0.25 cc/rev to 9.8 cc/rev, both standard and helical gears up to a maximum pressure of 350 bar.
