

What can PowerSecure do for You?

As a diverse power generation company, PowerSecure's distributed energy infrastructure solutions include distributed energy innovation, solar energy, fuel cells, energy storage, and microgrid solutions.

Who is PowerSecure?

PowerSecure is a pioneering microgrid company when it comes to developing distributed power systems and integrating them into a sophisticated system which can: PowerSecure's experts can streamline the most complex projects. We deliver fixed-price, end-to-end development, construction, and implementation for the lifecycle of your project.

Who owns PowerSecure?

In 2016 PowerSecure joined the Southern Company as a wholly owned subsidiary. Over the last 20 years, PowerSecure has deployed over 1700 microgrid systems (\*85% of the U.S. market share), and boasts \*\*98.7% system reliability, exceeding industry standards.

How reliable is PowerSecure?

Over the last 20 years, PowerSecure has deployed over 1700 microgrid systems (\*85% of the U.S. market share), and boasts \*\*98.7% system reliability, exceeding industry standards. We are a proven provider of multi-measure energy efficiency projects with \$800+ million engineered, installed and commissioned projects.

How many GW of energy does PowerSecure monitor?

We currently monitor 1,800+ units generating 1.6 GW of energy at 1,797 live sites across the United States. Founded in 2000, PowerSecure is a technology company focused on distributed energy systems and the integration of multiple energy resources for basic and advanced microgrid deployments.

Can PowerSecure be your safety net in a storm?

Count on us to be your safety net in any storm. PowerSecure, a Southern Company subsidiary, is the nation's leading distributed energy infrastructure company. Our team of experts has developed, installed, managed and serviced 2+ GW of microgrid capacity over the past 20 years, as well as implemented over \$900 million of energy efficiency upgrades.
