

Private courtyard energy storage warsaw plant

What is Poland's largest energy storage facility?

Poland's state-owned power producer PGE is working on the largest energy storage facility in Europe with a capacity of 200 megawatts (MW). The project obtained a preliminary license from Poland's energy regulator.

Will Poland have a power storage system?

The project has obtained the first license promise in Poland for electricity storage, PGE said in a press release. The storage system will be set up at the 716-MW Zarnowiec pumped-storage power plant with 3,600 MWh of storage capacity. The hybrid system will be capable of supplying power to about 200,000 households for at least five hours.

Is PGE working on the largest energy storage facility in Europe?

I accept the Terms of use and the Privacy Policy Poland's state-owned power producer PGE is working on the largest energy storage facility in Europe with a capacity of 200 megawatts (MW).

Where is PGE's new solar storage facility located?

Located about 10 km from the Baltic Sea, the planned storage facility will help balance the integration of renewable energy, including PGE's own solar farms as well as onshore and offshore wind parks.
