

Does Luma energy have a power grid in Puerto Rico?

The contract under which LUMA Energy operates the power grid in Puerto Rico was signed after a bid in 2020. In the bid, five different companies participated and only four submitted business proposals. The \$1,500M contract is set to last for 15 years and can be renewed if both parties agree.

Who is Luma energy?

LUMA Energy was registered in Puerto Rico's Registry of Corporations and Entities on January 17, 2020, under the name LUMA Energy ManageCo, LLC. The name was changed to LUMA Energy, LLC. as of June 12, 2020.

How much does electricity cost in Puerto Rico?

The base electricity cost per kilowatt-hour in Puerto Rico for a residential customer is \$0.04944 for the first 425 kWh consumed, and \$0.05564 per kWh after 425 kWh of consumption, with base fee of \$4 which is independent of consumption. Where the majority of the cost in energy comes is in the fuel charge and energy purchase clauses.

Why does Puerto Rico need electricity?

Every day we depend on electricity. We need it to run lights on the roads, produce goods and services, and keep the economy moving. Our job is to provide you with safe, strong, reliable electric service. The transformation of the electric grid, coupled with better services and rapid response, will allow us to live in a better Puerto Rico.

What happened to Puerto Rico's power grid?

Puerto Rico's grid was devastated by Maria, a Category 4 storm that killed thousands and triggered an island-wide blackout that dragged on for almost a year in some communities. And it was hardly in great shape beforehand. A mixture of power, cable and telephone lines criss-cross the sky in the coastal city of Aguadilla, Puerto Rico.

Can Puerto Rico's aging electricity system be repaired?

The island's aging electricity system can be confusing and difficult to repair. (Sylvène Gilchrist/CBC) The public utility -- the Puerto Rico Electric Power Authority (PREPA) -- went through a decades-long cycle of cost-cutting, deferred maintenance and rate freezes, all while accumulating \$9 billion US in debt.
