

What is Pure Storage?

Pure Storage has the most energy-efficient storage technology on the planet, and we stand by it financially. Pure Storage will pay power and rack space costs for organizations activating an Evergreen//One or Evergreen//Flex (TM) subscription on or after October 10, 2023.

Does Pure Storage offer a paid power & rack space commitment?

Last year, Pure Storage announced a first-of-its-kind Paid Power and Rack Space Commitment in our Evergreen ® subscription portfolio to help you satisfy the board and the bottom line. It's not a gimmick and it's not carbon credits--it's actual dollars or service credits.

How sustainable is Pure Storage?

Since reporting its first sustainability results in March 2022, Pure Storage has now performed use phase sustainability analyses following the Life Cycle Assessments (LCA) formula across its full portfolio of storage arrays, including the new FlashBlade//S. Pure delivers: 84.7% in direct energy savings vs. competitive all-flash for FlashArray//X(TM)

What is a Pure Storage ® evergreen//forever subscription?

The Pure Storage ® Evergreen//Forever subscription guarantees a maximum number of actual watts per terabyte (TiB) and certain TiBs per rack unit. This helps optimize available rack space, lower operational costs, and further customers' sustainability efforts. If Pure Storage cannot meet the guarantee, customers will receive a credit.

What is Pure Storage (pSTG)?

Pure Storage (NYSE: PSTG) uncomplicates data storage, forever. Pure delivers a cloud experience that empowers every organization to get the most from their data while reducing the complexity and expense of managing the infrastructure behind it.

Does Pure Storage offer a no data migration guarantee?

Pure Storage is committing to customers that they can eliminate data migrations with our No Data Migration Guarantee. Evergreen has been delivering non-disruptive innovation without forklift upgrades or data migrations for over 10 years.
