

# Ranking of gitega energy storage companies

What are the top 10 energy storage systems integrators in China?

In 2019, among new operational electrochemical energy storage projects in China, the top 10 energy storage system integrators in terms of installed capacity were Sungrow, CLOU Electronics, Hyperstrong, CUBENERGY, Dynavolt Tech, Narada, Shanghai Electric Guoxuan, Ray Power, Zhiguang Energy Storage, and NR Electric.

What are the top 5 energy storage cell manufacturers?

The top five largest energy storage cell manufacturers in the first half are CATL, EVE Energy, REPT, Hithium, and BYD. CATL secured the top position with orders from major customers like Tesla and Fluence. EVE Energy received orders from all big customers, sustaining second place in the industry.

How are energy storage companies rated?

These companies are rated on 12 criteria: vision; go-to-market strategy; partners; production strategy; technology; geographic reach; sales, marketing, and distribution; product performance; product quality and reliability; product portfolio; pricing; and staying power. Which companies are the leading global vendors for energy storage systems?

How many GWh of energy-storage cells were shipped in 2023?

Updated February 06, 2024 The world shipped 196.7 GWh of energy-storage cells in 2023, with utility-scale and C&I energy storage projects accounting for 168.5 GWh and 28.1 GWh, respectively, according to the Global Lithium-Ion Battery Supply Chain Database of InfoLink.

Which energy companies have the most GWh shipments?

BYD and EVE Energy followed closely each with shipments of over 25 GWh, while REPT BATTERO and Hithium each ranked fourth and fifth with shipments of over 15 GWh. Despite intense price competition, the leading companies demonstrated significant cost control advantages, reinforcing the "the strong get stronger" pattern.

Why is Panasonic a leading energy storage company?

Thanks to a wide and varied portfolio of solutions, Panasonic has positioned itself as one of the leaders in the energy storage vicinity. Panasonic is one of the industry's top names due to its advances in innovative battery technology alongside strategic partnerships and extensive experience in manufacturing high-quality products.

In 2021, Tesla accounted for a 5.3 percent share of the global energy storage integration system market, which combines the components of the energy storage technologies into a final system.

In 2022, the total shipments of energy storage system companies in China reached 50 GWh, a year-on-year
