

Does Romania have a smart grid?

Electrica Group provides energy to 3.7M homes and businesses in Romania and is undertaking a significant programme to modernize the country's energy infrastructure as part of a smart energy transition. Smart grid will play a massive roll in this transition, but the key questions are "how?"

How many smart meters are deployed in Romania?

This demonstrated what sophisticated smart meters based on the OSGP standard can achieve in Romania. Approximately 13,000 meters were deployed in these two regions since 2016.

What can NES and adrem do for smart metering in Romania?

The smart meter deployments conducted by NES and Adrem for Electrica provide important insight as to the right technologies (PLC) and protocol (OSGP) to utilize for smart metering in Romania.

Why did Electrica choose adrem engineering & NES?

As part of this effort, Electrica chose to work with Adrem Engineering, a leading Romanian supplier of utility services and solutions, and Networked Energy Services (NES), a global smart grid solution provider with the industry's leading Energy Applications Platform (EAP TM).

President of the Intelligent Energy Association Dumitru Chisalita drew attention to the fact that a possible disbanding of the Energy Ministry would come at a time when, after 17 years, Romania has an

Energy Strategy, and warned that such a decision seems to create a joy for the "smart guys", who are upset by what the ministry has done in the last year and a half.

Echipa noastră de peste 420 de cititori acoperă necesarul de citiri în peste 23 județe, atât pentru gaz, cât și pentru electricitate. Oferim promptitudine și încredere, și ne asigurăm că fiecare interacțiune cu clientul final este un succes

In the UK, E.ON has already installed 2.5 million smart meters. In Romania, some 320,000 smart meters have been installed in recent years, and by 2028 the target is the installation of about 397,000 other meters. As a result, by the end of 2028 more than 700,000 customers, representing 45% of the market, should have smart meters installed.
