Mordor Intelligence expert advisors conducted extensive research and identified these brands to be the leaders in the Romania Solar Energy industry. Danagroup. Hu. Need More Details On Market Players And Competitors?

Is Romania a good country for solar energy?

National targets for solar PV With an average of 1,900 to 2,400 annual sunlight hours,Romania has significant natural potentialfor solar PV development. Yet,the country has not set ambitious targets for renewable energy sources,aiming for only 30.7% of its final energy consumption to come from RES by 2030.

How much solar energy does Romania need?

In the context of the European ambitions,Romania would need to aim for 44.4% RES,meaning 11.1 GWof solar - 6.1 GW for utility-scale and 5 GW for rooftop PV1. Drivers for solar growth The last two years have been marked by significant legislative changes that underpinned the development of the Romanian PV sector.

We aim to develop, manufacture, and deliver the most reliable and cost-effective solar energy solutions to every corner in the world.
