

Where are photovoltaic power plants located in R  union Island?

With a 36,8 MW installed capacity in 2021, Albioma is the leading producer of photovoltaics in R  union Island. These photovoltaic power plants are all located in areas where there is no conflict of use, such as La Star, which was built on a landfill site that was still in operation.

How does Albioma produce electricity in R  union Island?

As the leading electricity supplier in R  union Island, Albioma produces 46 % of the energy available in the grid by operating two thermal biomass power plants, a bioethanol combustion turbine and a large photovoltaic fleet.

How can a new energy system be made in R  union?

This includes replacing sugar cane with different food crops; restricting urbanization; increasing the capacity for producing energy from waste; significantly scaling up photovoltaics that convert sunlight directly into energy; and convincing R  union islanders to make certain lifestyle changes.

What is Reunion?

Reunion is a team with extensive experience in clean energy finance transactions. They have led hundreds of such transactions and have valuable insights on structuring deals to maximize economics and minimize risk. Reunion's team has been at the forefront of clean energy financing for the last twenty years.

Will switching to renewables solve R  union's self-sufficiency problem?

Although laudable, switching to renewables will not solve the self-sufficiency problem. The renewable sources R  union uses to generate electricity will still be mainly imported from abroad. "Forests will be cut in Canada to put in our furnaces in R  union island," says Mathieu David, who studies mechanics and energy at the University of La R  union.

What is Reunion Finance?

Reunion is a technology-enabled finance company called Reunion that guides tax credit buyers and sellers step by step through the transaction process. We have the highest quality projects on our platform and mitigate risk through our proprietary diligence, diversification, insurance, and administration process.
