

What do you think of iskus power?

Iskus Power offered us first class service, their staff were professional and knowledgeable, disruption was minimal and the team genuinely showed an understanding of the needs of the bank and how to best meet our needs. Overall we are very pleased with the service, installation and performance of the system.

How much does electricity cost in Saint Martin?

For Sint Maarten, the equivalent rates are roughly \$0.35/kWh. Like many islands, Saint Martin is highly dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

What's it like to work with iskus Power Ltd?

Working with Iskus Power Ltd on our 2nd Solar project was a great success and they have a good team of people right from when the initial consultation starts, through the design process, project sign off and installation on site. We would be more than happy to work with Iskus Power Ltd again on another project in the near future.

What is Sint Maarten's national energy policy?

renewable energy.¹⁰ The plan also emphasizes the need to raise awareness of energy conservation among individuals and businesses through communication campaigns. Sint Maarten developed a National Energy Policy (NEP) in 2014 that aims to mitigate the impact of energy use on the environment while reducing electricity tariffs.

Social work at Saint Martin's is a rigorous, exciting program where students leave as skilled, ethical, evidence-based practitioners.
