

Salary increase range in energy storage industry

Why is the energy industry focusing on high-paying jobs?

As the U.S. economy recovers from the COVID-induced recession, the emphasis is shifting away from the simplified metric of the number of jobs, toward a focus on high-quality, high-paying jobs. As some service sectors languish with unfilled positions and shorthanded staffing, the energy industry pays premium wages.

How much do energy jobs pay per hour?

Regardless of the relatively small differences between sectors, an important point is that all energy jobs pay well above the national average of \$19 per hour, and the non-extractive sectors are growing swiftly. The future of extractive industries' employment is much less certain.

What is the highest wage category in the energy industry?

The highest wage category in the energy industry is in electricity generation and power plant operations. Regardless of the energy source, the pay is similar between fossil fuels and renewables, with solar electricity generation edging out the others. The climate is changing, and our journalists are here to help you make sense of it.

What is the future of energy storage?

Renewable penetration and state policies supporting energy storage growth Grid-scale storage continues to dominate the US market, with ERCOT and CAISO making up nearly half of all grid-scale installations over the next five years.

Are energy jobs in high demand?

The coming boom in energy jobs has a lot to offer: Long-term employment with high wages, new technologies, and investment in the future of American energy. And these jobs will result in less pollution for everyone. Also see: 'Which climate change jobs will be in high demand in the future?'

Why are annual storage installations growing faster than wind and solar?

Annual storage installations are growing faster than wind and solar as the sector races to keep up with the growing need to balance renewables and support grid resiliency. The storage market is also supported by falling module costs and IRA tax incentives.
