Onyx Solar significantly contributed to the historic refurbishment of the emblematic Santa Clara's lighthouse in San Sebastian, Spain. The installation of amorphous silicon photovoltaic glass for the new skylight marked a milestone groundbreaking integration of photovoltaic technology into historical buildings. To enhance safety, an anti-slip treatment was applied to the exterior ...

We have teamed up with the leading solar experts to offer our customers the highest quality solar canopies that will generate maximum solar power and will last for many years to come. Enabling you to earn back the money that the canopy originally cost you and more!

Onyx Solar is the global leading manufacturer of photovoltaic glass for buildings. The company is based in Ávila, Spain, and has offices in the United States and China. Since 2009, we have completed more than 350 projects in 50 countries. Our current yearly production capacity is 2 million sq. ft. of PV glass.

Founded in 2009, Onyx Solar is a global leader in photovoltaic glass solutions for building-integrated photovoltaics (BIPV). With over 500 projects across 60 countries, we harness sunlight to generate clean energy while enhancing thermal insulation, acoustic control, and filtering ultraviolet (UV) and infrared (IR) radiation. Our customizable aesthetics cater to diverse ...

Onix Solar Pte Ltd mainly focusing on solar power, solar thermal, Photovoltaic thermal hybrid and air source heating solutions and install our products for a growing customer base in Singapore. Onixtech offers products from extensive range of world-class manufacturers, and provide complete renewable energy solutions that integrate with building ...

The selected photovoltaic glass for the Femsa Headquarters was meticulously chosen to align with the project's design goals and client specifications. With a visible light transmission (VLT) of 20% and a solar factor of 34%, the glass provides an effective balance between natural light, shading, and solar heat control. This ensures that the building benefits from a comfortable ...

Onyx Solar has installed 2,579 m² of solar canopies featuring 1,194 photovoltaic glass panels. Each one provides 344 Wp of power and 18% light transmission, achieving a total of 410 kWp in renewable energy and enhancing comfort on the terraces. Our photovoltaic glass panels, with 6 mm double glazing and an acid-treated interior, ensure efficient light transmission and ...

MARINO SOLAR PTE. LTD. (the "Company") is a Exempt Private Company Limited by Shares, incorporated in Singapore .
