

SetSolar geyser systems use solar panels to power existing electrical geysers (up to 4kW elements). Hybrid Power Setup The solar geyser systems can be set up to operate as a hybrid between AC and PV power, where AC power is partially used to heat up the water and the solar panels heats it up further, significantly cutting costs.

SetSolar Centurion has engaged with countless business owners who have lost valuable equipment and stock due to load shedding, black outs and brown outs. Planning for load-shedding is helpful, but when the return of power is followed by spikes and fluctuations, equipment gets damaged or destroyed. Large equipment used in manufacturing, office ...
