How does flexitricity optimise Gore Street Capital's batteries?

Flexitricity optimizes Gore Street Capital's 19.5MW Larport Farm battery and their 10MW Breach Farm battery from its 24/7 control room in Edinburgh. These batteries deliver frequency response services to National Grid and are also traded in the day ahead and intraday energy markets, and directly with National Grid in the Balancing Mechanism.

Is Gore Street a good battery storage fund?

Nevertheless, while Britain's market continues to be attractive for battery storage, and Gore Street has fixed price EPC contracts in place for all projects under construction in Britain, the fund's reach has been extended beyond the market it started off in, adding to its portfolio in Ireland, Germany and the US.

What is Gore Street Capital?

Gore Street Capital is a market leader for energy storage in the UK with 210MW of battery energy storage systems in operation.

Who will be the winner of grid-scale battery energy storage?

China is likely to be the main winner from the increased use of grid-scale battery energy storage. Chinese battery companies BYD, CATL and EVE Energy are the three largest producers of energy storage batteries, especially the cheaper LFP batteries.
