

Who is Sharp Solar Energy?

Providing solar energy solutions has been Sharp's core competence for 65 years. To date, Sharp has delivered more than 50 million cutting edge photovoltaic (PV) panels worldwide, meeting the needs of thousands of international solar energy customers.

Who makes Sharp Solar panels?

Peter Thiele, President of Sharp Energy Solutions Europe Sharp's portfolio of high-performance solar modules is built for residential, commercial and free-field installations. We constantly adapt our range of PV panels to the latest technologies and check every new technology thoroughly before use to ensure longevity.

How many solar panels does sharp sell?

To date, Sharp has delivered more than 50 million cutting edge photovoltaic (PV) panels worldwide, meeting the needs of thousands of international solar energy customers. From our European office we sell our solar power systems to installers, distributors and project companies in Europe, the Middle East and Africa.

Who are sharp energy solutions?

Some of our members have decades of PV experience to fall back on. The Sharp Energy Solutions team has been based in Hamburg, Germany for 30 years now. Our Hamburg office is home to our Solar Service, Marketing, Sales, Project Development, Sales Support, Product Engineering and Management Teams.

What makes sharp a good solar distributor & installer?

As a PV distributor or installer you need a strong brand within your solar portfolio. Sharp is that one PV brand that has earned people's trust over a century and continues to innovate in various different product categories.

Where are sharp solar panels used?

Sharp solar panels are operating in many areas; from family homes and installations in extreme environments such as lighthouses and satellites, to recently completed megawatt-scale solar power plants. 'Sharp's innovation and developments into module technology over half a century have allowed us to always improve and adapt to market circumstances.

Una instalaci3n solar fotovoltaica consta de varios componentes. Los paneles solares son el coraz3n de cualquier instalaci3n fotovoltaica, pues convierten la luz del sol en corriente el3ctrica. La corriente que producen los paneles solares es corriente continua, lo que significa que la corriente fluye de forma homog3nea en una direcci3n.

We sell Sharp solar panels to solar professionals - including distributors, installers (varies by territory), and project developers across Europe, the Middle East, and Africa. Fill out the form and register as a customer now so that you ...
