

Which Simco Ion power supplies are UL & CSA approved?

UL, CSA and CE approved. The G165 (120V) and G265 (230V) will power up to two Cobra Ionizing Air Guns. CE approved. The N167 (120V) and N267 (230V) are Simco-Ion's most versatile power supplies. They can be used with several shockless static bar models (R50 Bar and MEB Bar).

Which Simco Ion power supply is best?

The F167(120V) and F267 (230V) are among Simco-Ion's most popular power supplies. They can power a variety of shockless static eliminators, including the HS Nozzles (up to 100 nozzles), and MEB Bars. The units' compact size and budget friendly price make them customer favorites. UL, CSA and CE approved.

What type of power supply does Simco-ion use?

The N167(120V) and N267 (230V) are Simco-Ion's most versatile power supplies. They can be used with several shockless static bar models (R50 Bar and MEB Bar). A terminal block connector inside the power supply allows for the connection of up to four static eliminators to one power supply. The units accept either shielded or unshielded cable.

Which Simco-Ion power supply is CE approved?

CE approved. The N167(120V) and N267 (230V) are Simco-Ion's most versatile power supplies. They can be used with several shockless static bar models (R50 Bar and MEB Bar). A terminal block connector inside the power supply allows for the connection of up to four static eliminators to one power supply.

How many static eliminators can be connected to a power unit?

Up to 4 static eliminators can be connected. This power unit is equipped with two high-voltage transformers with 180° phase-shifted output voltages. As a result, the anti-static bars connected to the power unit produce positive and negative ions simultaneously.

Who is Simco-ion?

Simco-Ion is the unsurpassed leader in solving static control problems in a wide range of industries. Since 1936, Simco-Ion has distinguished itself by manufacturing innovative, high quality static control products and providing outstanding customer service and application expertise. Why Is Static Control Important?

Simco-Ion offers a wide selection of power supplies that help provide high voltage output power producing ionization for complete static control. Phone: 215-822-6401 | Toll Free: 800-203-3419 Products

Power units are easily connected and operated and don't need any maintenance. Below you find the different types of power units for anti-static equipment produced and delivered by Simco-ION . All anti-static power units can be used ...
