

# Singapore install solar panels at home cost

How much does solar installation cost in Singapore?

The cost of installation will vary based on several factors. The most important being the number of solar panels being installed. The cost of a solar installation in Singapore ranges from S\$15,000 to S\$36,000 or more. That said, a good estimate will be S\$20,000 as most residential solar panel systems are around 10 kWp (S\$2,000/kWp).

How much does solar panel maintenance cost in Singapore?

The typical solar panel maintenance cost usually ranges from \$300 to \$500 per visit in Singapore. Your solar system installers will both clean your solar panels and conduct tests on your inverters and breakers. Similar to air-conditioners, we encourage solar homeowners to schedule an annual maintenance visit for your solar system.

Are solar panels affordable in Singapore?

**Cost Considerations:** The cost of solar panels and installation can vary. Still, with government incentives and a growing number of solar companies in Singapore, it's becoming more affordable. **Sustainability:** Embracing solar power contributes to Singapore's goal of generating 540 MWp of solar energy by 2030.

How much does a solar panel system cost?

The cost of your solar panel system would be S\$18,000 and is sufficient for average energy consumption of 890 kWh per month. **Semi-detached Houses:** You may be able to install around 30 solar panels or a 12 kWp system which will be able to cover an average monthly energy consumption of 1,182 kWh. This will cost around S\$24,000 for the entire system.

Can solar panels be installed on a roof in Singapore?

Solar panels can be installed on almost all roofs. That said, there are certain roof types that require additional materials for installation -- such as racking and mounting systems. Meanwhile, your roof's material will determine the mounting mechanisms needed for your installation. In Singapore, roofs are usually tiled, metal or concrete.

How much do solar panels cost for a bungalow?

**Bungalows:** Rooftop solar systems for bungalows would usually be around 50 solar panels, equating to a 20 kWp system with an installation area of 110m<sup>2</sup>. The average solar panel price for bungalows would be around S\$36,000 due to the high number of panels and large installation area.

So, how much does it cost to install solar panels in Singapore? The price depends on your house type, roof size and size of your solar system, which can range from S\$18,000 to S\$36,000 or more. **Terrace Houses:** The ...
