

How is energy used in Slovak Republic?

Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

Is Slovakia a net exporter of electricity?

From 2024, following the completion of two new nuclear reactors, Slovakia will return to being a net exporter of electricity. Slovnaft is the largest oil refinery in Slovakia. In 2022 Slovakia sought to reduce its reliance on oil from Russia. Slovenský plynárenský priemysel (Slovak Gas Industry) is the main natural gas supplier in Slovakia.

Why is energy security important in the Slovak Energy Strategy?

With high dependency on energy imports, energy security is one of the priority topics of the Slovak national energy strategies. This provides a good basis for further developing the energy security dimension in the final plan, with objectives and policies and measures clearly described.

Is biomass a source of electricity in Slovakia?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Slovakia: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

Does Slovakia have electricity interconnection capacity?

Slovakia has significant electricity interconnection capacity compared to its electricity generation capacity. The planned increase of new nuclear capacity is accompanied by new connections, e.g. with Hungary, aimed at reducing congestion. The interconnection level is projected to be at 52% in 2030. The

How did Slovakia reduce its reliance on natural gas in 2022?

In 2022 Slovakia sought to reduce its reliance on natural gas from Russia who was supplying 81% in 2020. In order to lower reliance, a gas pipeline interconnector with neighbouring Poland was completed by August 2022 and put into operation in a bilateral opening ceremony on the 26 August 2022.

EU Directive on Energy Efficiency was implemented in Slovakia by means of the "Energy Efficiency Act" (Act No 321/2014 Coll. of 21 October 2014 on Energy Efficiency.). The main identifiable features to tackle demand response are: (i) the obligation to undertake periodical energy audits to evaluate cost-effective electricity use for large ...

Ginger Monkey Hostel has been set up by a couple of backpackers in the beautiful village of Štiar in the High Tatras Mountains of Slovakia. The Hostel is cosy, friendly and feels like a home away from home, it is quite small and so quite sociable.

Among the unexpected major nuclear powers in the EU, Slovakia stands out by its energy production profile, quite unique. Thanks to an unique public policy that started in the 1960, when Czechoslovakia was still a country, the Slovakian government have been expanding nuclear capacities continuously. Today, Slovakia produces more than 60% of its energy from ...

The Slovakia energy drinks sector is poised for a dynamic growth phase, anticipating an increase of USD 92.3 million and a compound annual growth rate (CAGR) of approximately 7.6% from 2024 to 2029. Slovakia's energy drinks market benefits from a youthful demographic with an increasing affinity for sports and fitness. The rising trend of ...

„Keď Slovakia Energy začala v roku 2008 pôsobiť na slovenskom trhu, oľakovali sme, že sa regulácia skončí. Je však rok 2021 a koniec tejto regulácie je stále v nedohľadne. Zadaného stavu nemôžeme zmysel, aby sme investovali do ďalšieho rozvoja firmy, a preto sme sa rozhodli pristáť k tomuto rozhodnutiu kroku a vrátiť ...
