

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

What will Saba electric do in 2025?

Saba has proposed an expansion of its renewable energy production and penetration to 90% by 2025. Upon successful implementation of this project, Saba Electric company will have 6MWp of Solar PV, 17MWh battery storage and 0.5MW Wind energy mix with our generators becoming more of a standby generation facility with 4.3MVA capacity.

What is the future of grid modernisation?

With 90% of RE generation in our distribution network comes the challenge of balancing supply and demand and peak loads. The next iteration of grid modernisation would have to be smart meter technology and field monitoring controlling and forecasting devices to better manage the grid operability and grid optimisation.
