

Will Puerto Rico get a solar loan guarantee?

The loan guarantee will finance the construction of two solar PV farms equipped with battery storage and two standalone battery energy storage systems in Puerto Rico. The facilities will be located in the municipalities of Guayama (Jobos) and Salinas and will help deliver clean, reliable and affordable power throughout Puerto Rico.

How will Puerto Rico benefit from a solar PV project?

Annually, the solar PV installations will produce approximately 460,000 MWh of energy, enough to power approximately 43,000 homes, and enhance Puerto Rico's grid reliability and energy security. The co-location of the new solar and battery resources will help maximize the project's energy production and improve grid stability.

How much solar power does Puerto Rico have?

Collectively, the project comprises 200 MW of solar PV and up to 285 MW (1,140 MWh) of stand-alone BESS capacity. Annually, the solar PV installations will produce approximately 460,000 MWh of energy, enough to power approximately 43,000 homes, and enhance Puerto Rico's grid reliability and energy security.

When will a solar project start in Puerto Rico?

The project, inaugurated on November 1 in Salinas, Puerto Rico, is expected to begin operations at the end of 2024. DEPCOM developed, procured, and is managing the installation of the 90 MW solar project. It includes a 51.5 MW on-site battery energy storage system (BESS).

Does Puerto Rico need a solar system?

According to the Climate and Economic Justice Screening Tool, the Commonwealth of Puerto Rico, including the communities surrounding the Salinas and Jobos projects, face some of the greatest energy burdens in the United States. Widescale solar deployment can help benefit communities across the island by reducing Puerto Rico's high energy costs.

Can Puerto Rico replace old diesel power plants with solar?

In this case, the Puerto Rico government sought federal assistance to replace some of its oldest diesel-fired power plants with solar and storage projects through the Energy Infrastructure Reinvestment Program, which was created by the Inflation Reduction Act to help repurpose or replace existing fossil fuel infrastructure, Shah said.

The U.S. Department of Energy, through its Loan Programs Office, on Oct. 15 announced a \$861.3 million loan guarantee to finance the construction of two solar photovoltaic farms equipped with battery storage and two standalone battery energy storage systems in ...

LPO announces a conditional commitment for a loan guarantee of up to \$861.3 million to Clean Flexible Energy, LLC to finance the construction of two solar PV farms equipped with battery storage and two standalone BESS ...

The U.S. Department of Energy (DOE) Loan Programs Office (LPO) announced a conditional commitment for a loan guarantee of up to \$861.3 million to Clean Flexible Energy to finance the construction of two solar photovoltaic (PV) farms equipped with battery storage and two standalone battery energy storage systems (BESS) in Puerto Rico.

6 Puerto Rico Act 17-2019 (Puerto Rico Energy Public Policy Act). April 2019. April 2019. 7 The PR100 study also included an important and often overlooked finding regarding the short-term cost of improving the reliability

The U.S. Energy Department said on Thursday it is offering a conditional loan guarantee of up to \$861 million for two utility-scale solar-energy projects in Puerto Rico that are expected to boost ...

The island has several solar photovoltaic farms but gets about 46 percent of its power from oil and only about 3 percent from solar. At the center of all this is PREPA and its outsized role in ...

SAN JUAN, PUERTO RICO -- The U.S. Department of Energy (DOE) today announced a slate of solar companies and nonprofits selected to install rooftop solar and battery storage systems for vulnerable households in Puerto Rico through the Puerto Rico Energy Resilience Fund (PR-ERF). The first tranche of PR-ERF funding, up to \$440 million, will help ...

The loan guarantee will finance the construction of two solar PV farms equipped with battery storage and two standalone battery energy storage systems in Puerto Rico. The facilities will be located in the municipalities of ...

Puerto Rico will add up to 200 megawatts (MW) of solar generation and another 285 MW/1,140 MWh of battery energy storage, thanks to an \$861.3 million loan guarantee from the U.S. Department of Energy's Loan ...

SAN JUAN, PUERTO RICO-- The U.S. Department of Energy (DOE) today announced up to \$453.5 million from the Puerto Rico Energy Resilience Fund (PR-ERF) aimed at increasing residential rooftop solar PV and battery storage installations across the region, with a focus to reach and support Puerto Rico's most vulnerable residents. This round of funding will ...

A joint venture between AES Corp (NYSE:AES) and TotalEnergies (EPA:TTE) has obtained a conditional commitment from the US Department of Energy (DOE) for a loan guarantee of up to USD 861.3 million (EUR 791m) to fund the construction of certain solar parks and battery storage plants in Puerto Rico.

PROJECT SUMMARY . In October 2024, LPO announced the closing of an \$861.3 million loan guarantee to finance the construction of two solar photovoltaic (PV) farms equipped with battery storage and two standalone battery energy storage systems (BESS) in Puerto Rico.

The Loan Programs Office will finance the construction of two solar photovoltaic (PV) farms equipped with battery storage and two standalone battery energy ... Biden Harris Administration Announces More Than \$860 Million Loan Guarantee to Support Construction of Utility-scale Solar and Battery Storage in Puerto Rico. October 15, 2024. Clean Energy;

The US Department of Energy (DOE) said on Tuesday it has closed a USD-861.3-million (EUR 793.5m) loan guarantee to finance the construction of two solar-plus-storage parks and two standalone battery energy storage systems (BESS) in Puerto Rico.

PREPA also envisions building large solar farms. ... Foundations and charities are helping individuals, communities and businesses install solar panels and battery systems in Puerto Rico, with ...

AES Corp. Affiliate Receives \$861M+ from DOE to Build 2 Utility-Scale Solar PV + Battery Storage Farms in Puerto Rico. July 18, 2024. ... The Salinas site will include a 120-MW solar farm and 175 MW in battery storage, along with the substation and a 4,717-meter and 11-kV line. According to the DOE report, the transmission will connect Salinas ...
