

Who can benefit from a new off-grid solar scheme in Benin?

Households, smallholders and entrepreneurs in remote locations across Benin will be able to access reliable and cheap electricity for the first time under a new off-grid solar scheme agreed between leading solar energy company ENGIE Energy Access and the European Investment Bank, one of the world's largest financiers of renewable energy.

How will a European Investment Bank loan help Benin?

The European Investment Bank has agreed to provide a EUR 10 million loan to support the deployment of 107,000 high-quality solar home systems to Benin. This will open up access to clean energy for 643,000 people. The solar home systems include solar panels and battery storage to be sold on Pay-As-You-Go (PAYGO) contracts.

Will EIB support Engie to deploy off-grid solar power in Benin?

The new Benin cooperation follows EIB's previous support for ENGIE to deploy off-grid solar power in Uganda. Benin is the sixth African country to benefit from the EIB's streamlined support for African off-grid energy investment, following recent backing for projects in Mozambique, Uganda, Chad, the Democratic Republic of Congo and the Comoros.

Why did Electrifi invest in Les Soleils du Bénin?

Les Soleils du Bénin's General Director, also shared his thoughts on the investment, saying, "This investment from Electrifi is a significant milestone for Les Soleils du Bénin. It underscores the importance of partnerships and demonstrates the shared commitment to providing clean energy access to the people of Benin."

What can Engie do for Benin?

Following the new agreement between ENGIE and the European Investment Bank, households, entrepreneurs and smallholders across Benin will be able to access electricity for mobile phones, solar lighting, refrigeration, radio and television.

What is PAYGO partnering with the European Investment Bank in Benin?

Our new partnership with the European Investment Bank in Benin will provide ultra-affordable PAYGO systems to people in villages across the country, giving access to clean solar energy and financial empowerment.

If you're considering going solar but buying home battery storage in the future, acquiring a battery-ready or upgradeable system is important; one that includes an energy monitor - chat with our storage experts ...

This initiative seeks to deploy 1.7MWp of solar photovoltaic (PV) capacity, backed by 3MWh of battery

storage, thereby empowering over 3 000 households and businesses with reliable ...

This initiative seeks to deploy 1.7MWp of solar photovoltaic (PV) capacity, backed by 3MWh of battery storage, thereby empowering over 3 000 households and businesses with reliable electricity supply. The total project cost of ...

They will start by working on rural electrification projects in 12 localities, aiming to install 1.7MW of solar PV and 3MWh of battery storage within 12 months. The companies stated that the projects would create autonomous, ...

*whichever occurs first. Powervault 3. Powervault is a UK-based company with a mission to lower people's electricity bills and carbon footprints. Their most popular solar battery is the Powervault 3, and for good reason too. One of the main ...

The project will finance the deployment of solar home systems in Benin. The solar home systems are composed of a solar panel, a central unit (including battery storage, an energy management system / charge controller ...

They will start by working on rural electrification projects in 12 localities, aiming to install 1.7MW of solar PV and 3MWh of battery storage within 12 months. The project will create minigrids that are autonomous, connected ...

Savant's Storage Power System integrates directly with its Power Modules (which make your electrical panel smart) and its Level 2 EV Charger for complete control over your home's energy use. But even if you ...

ENGIE Energy Access officially inaugurates its first mini-grid project in Dohouè, a village in southern Benin. The Dohouè MySol Grid, equipped with 135 kWp of solar panels and 130 kWh of lithium-ion battery storage, now ...

The European Investment Bank has agreed to provide a EUR 10 million loan to support the deployment of 107,000 high-quality solar home systems to Benin. This will open up access to clean energy for 643,000 ...

To reach a target, the current solar potential in Poland, the photovoltaic (PV) productivity, the capacity of the energy storage in batteries as well as the size of the hydrogen ...
