The church added a six-kilowatt solar array that it expects will slash its energy costs by half in the first year alone, saving more than \$40,000 over the lifetime of the system. The array's \$18,000 price tag was covered in a single day with the help of crowdfunding efforts led by the nonprofit organization RE-volv, which also partnered with ...

As solar is becoming cheaper and more popular, choosing among the many solar energy companies in Thailand is getting harder, especially so as each installer may offer you different packages, services and energy solutions. Finding the right solar installer for your roof is important in ensuring a hassle-free installation that you are satisfied with.

A Philadelphia church, Ruth said, used money from its endowment to help a nearby African American church install solar panels - recognizing that the cost savings would support its social service center, which serves the community. "Many times, churches are frontline responders," Ruth said, "offering emergency shelter, food banks, and so on."
