

Where is the largest solar power plant in Togo?

The solar power plant is located in Blitta, a division in the Central Region. With a capacity of 50 MWp, the Mohamed Bin Zayed plant becomes the largest utility-scale solar park in Togo, and indeed in the West African sub-region. The new facility, which supplies clean energy to Togo's national grid, increases the country's energy autonomy.

Who developed the solar power station in Togo?

The power station was developed by Amea Power, an independent power producer (IPP), based in the United Arab Emirates. The solar farm, which is the largest grid-ready in Togo, is also referred to as Mohamed Bin Zayed Power Station, named after His Highness Sheikh Mohamed bin Zayed Al Nahyan, the Crown Prince of Abu Dhabi.

Is the new Togo solar power plant sustainable?

H.E. Mohammed Saif Al Suwaidi, Director General of ADFD, said: "This new Togo solar power plant truly reflects the level of sustainable impact we can achieve through the ADFD and IRENA renewable energy development program.

What is the largest solar farm in Togo?

The solar farm, which is the largest grid-ready in Togo, is also referred to as Mohamed Bin Zayed Power Station, named after His Highness Sheikh Mohamed bin Zayed Al Nahyan, the Crown Prince of Abu Dhabi. The power station began commercial operations in June 2021.

Who owns AMEA Togo solar?

The solar park will be operated and maintained by Amea Togo Solar, the local subsidiary of Amea Power, the UAE-based IPP that owns the power station. It is expected that the power station will provide electricity to 600,000 homes and 700 small and medium-sized enterprises, in Togo.

Where is the largest solar power plant in West Africa?
