

Where can I buy a solar system?

Find a specialist dealer Energy that stands. Make yourself independent with self-generated electricity from high-yield solar modules from Meyer Burger. Designed in Switzerland, developed in Germany and manufactured sustainably. Is a solar system worthwhile? Find a specialist dealer installed by experts.

What types of solar modules are available?

Customized solar modules in various types and sizes (crystalline, thin film, outdoor and indoor, various shapes, glass or ETFE laminated) and for BIPV/EIPV applications (shutters, parking meters, sensors, wearable electronics etc.).

Why should you choose a glass-glass solar module?

Energy that stands. Always the right choice, especially for visually demanding private rooftop installations. The white backsheet reflects light onto the solar cells for higher efficiency. The glass-glass module is bifacial and can absorb light from both sides. Stands strong. Our motto: Start strong and keep going.

Sunphase Solar's innovative features and advanced technology excellence secure non-ending rooftop benefits to any household or industrial project. With Sunphase Solar Energy's commendable expertise in the solar sector, we are confident to lead your way to a sustainable future with complete solar experience through our solutions.
