Our local stores do not honor online pricing. Prices and availability of products and services are subject to change without ...

330W solar panels. The price of solar energy has been steadily falling. Just some sixty years ago solar panels were much less efficient but cost a fortune - about 100\$ per watt vs. \$0.3-0.5 they cost now. A 330 watt solar panel is no exception. Homeowners tend to choose PV modules with similar wattage, and not without a reason.
