The new solar array, which will be comprised of 24,000 solar panels, will be built on the roof of Dubai Hills Mall, currently under construction. It is expected to generate 10.5 million kWh per year, enough to offset 4,620 tonnes of carbon dioxide (CO2) annually, said the subsidiary of ALEC Engineering and Contracting LLC.

The Orion technology solar cell research project looks towards a new generation of photovoltaics, which will also be able to collect high wavelength sunlight (infrared) and transform it into electrical energy with very high efficiencies, creating a cell with an enormous power-to-weight ratio.. The nerve center of this research is located in the new research center in Dubai, thanks to which ...
