Solar Stack is an innovative and damage-free solar panel mounting system that revolutionizes the way solar panels are installed on roofs. Unlike traditional methods that involve drilling holes and potentially causing damage to the roof, Solar Stack utilizes a spray polyurethane foam adhesive to securely bond the mounts to the roof surface.

Too remote to even have access to the grid? Looking for complete power independence? Off Grid Solar Kits are the best way to gain energy independence and produce all your own electricity. With an off grid solar kit from Shop Solar you'll never pay another utility bill again and you'll also save 50% on the cost of going solar.
