We also specialise in development and installation of solar powered solutions, for industries, homes, hospitals, schools, banks, government institutions, etc. Our services also ...

Frazer Solar is developing a large-scale solar-storage project for IPP investor, owner and operator Frazium Energy. Phase 1 of the development involves solar PV coupled with battery storage to provide 200 MWH of dispatchable baseload electricity per day. Electricity will be supplied to countries in the SADC region.

The implications of sustainable energy in a country plagued by darkness are immeasurable. "As the Forward Foundation looks for ways to impact our global community, offering opportunities that bring solar power to people throughout Eswatini is a great honor," says Robin Lally, President of the Forward Foundation.
