Who is solar systems Hellas?

Solar Systems Hellas is one of the leading companies in the sector of Renewable Energy Sources in Greece. The object of the company is the marketing, storage and promotion of photovoltaic equipment for the construction and installation of Photovoltaic Parks and domestic Photovoltaic installations of any size.

How many MWp solar systems are installed in Greece?

More than 3 MWp solar systems have been installed in Greece, contributing to improve the country's renewable energy footprint through 2,671 tons of CO₂ savings. One of the largest Greek installations is the 400 kWp solar project in Oropos, near the capital city Athens.

Does Greece have a solar system?

In fact, Greece is now one of many countries developing and operating solar projects and farms since the early 2000s. However, installations of photovoltaic systems saw a rise in 2009, due to the federal introduction and persistence of feed-in tariffs, along with corresponding regulations for domestic applications of rooftop solar PV. II. Avlona

What is the largest solar project in Greece?

One of the largest Greek installations is the 400 kWp solar project in Oropos, near the capital city Athens. This ground-mounted photovoltaic project, split into four installations with a power capacity of 100 kWp each, is connected to the national grid generating up to 580,000 kWh per year.
