Space Solar, global leader in space-based solar power, in collaboration with Transition Labs, have announced an agreement to provide Reykjavik Energy with electricity from the first-ever space-based solar power plant. Space Solar's first plant, set to be operational by 2030 with an initial capacity of 30 MW, marks a groundbreaking step in the global transition [...]

Portugal, Spain & Iceland. On August 12, 2026, the eclipse path will migrate over the East and North parts of Spain and Portugal, continuing on to Iceland's western side. More specifically, locations such as the Canary Islands in Spain, the Algarve region in Portugal and the western side of Iceland are expected to be optimal viewing spots.

Northern Lights in Iceland. In the ethereal realm of Iceland, a celestial spectacle awaits. The dance of the Northern Lights, scientifically known as the aurora borealis, graces the Arctic skies, leaving observers awe-inspired. These mesmerizing lights are a result of solar particles colliding with the upper atmosphere near the North Pole ...

Reykjavik Energy, known for its forward-thinking approach to climate action, most notably via their subsidiary Carbfix, is the ideal partner to bring this revolutionary technology to Iceland. Together, these organisations are tackling the engineering challenges of space-based solar energy and are currently identifying potential locations for ...

Experience the best of Iceland with this package of two of the island's most popular tours in one day! Soak in the milky blue healing water of the Blue Lagoon, which is one of Iceland's most famous tourist attractions and is ...

On 12 August 2026 at 16:42, we here in Iceland will be treated to an amazingly natural phenomenon: a total sun eclipse. Therefore, I am thrilled to bring back a familiar face to my readers: S&#230;var Helgi Bragason, a renowned Icelandic educator, TV personality, and an enthusiast of all things celestial.

Iceland's capital, Reykjavik, beckons with its Nordic elegance and Arctic wonders. Take in the stunning architecture of the Hallgrimskirkja church, soak in the nearby Blue Lagoon's geothermal waters, and explore the city's vibrant street art scene against a brisk North Atlantic backdrop.

The next total solar eclipse in Iceland will occur during the evening of Wednesday, August 12, 2026. Time and Date forecasts that the partial eclipse in Iceland will start at approximately 4:42pm, with totality (blackout) beginning at around 5:43pm.. Different Icelandic regions will experience totality at slightly different times within this window, and the duration of totality will also vary.
