

Skeleton, known for its Supercapacitor and SuperBattery, announced the acquisition of the assets of a bankrupt European Battery Technologies Oy in Finland. In addition, Skeleton secured a ...

Unlike traditional lithium-ion batteries, QuantumScape's Solid-State Lithium-Metal Battery features an innovative anode-less design and a proprietary solid ceramic separator. The technology ...

BYD's chief scientist expects solid-state batteries to be widely used in 5 years, starting with high-end models, the first time a BYD executive has spoken publicly on the topic in the last few years. (A BYD Yangwang U8 on ...

If an EV with a 90kWh Li ion battery has a range of 300mi, a 90kWh solid state battery will have roughly the same range. As the battery chemistry (or largely even its weight) are not the factor ...

Swedish battery maker Nilar International AB (STO:NILAR) is working with Estonian industrial and logistics real estate company Riigiressursside Keskus OU, or RRK Logistics Parks, to build a local plant for ...

A brief lesson on solid state energy: what is it? In a very straightforward way, a solid state battery uses solid electrodes and a solid electrolyte as the main source of storing and distributing ...

It can be charged in just 15 seconds, and can go through hundreds of thousands of charge-recharge cycles without degrading. Meet the "SuperBattery" developed by Estonian startup Skeleton Technologies, which ...

Skeleton, known for its Supercapacitor and SuperBattery, announced the acquisition of the assets of a bankrupt European Battery Technologies Oy in Finland. In addition, Skeleton secured a separate lease agreement with Keski ...

Estonia-based energy company Eesti Energia plans to install what will be its home country's first grid-scale battery energy storage system (BESS), of 25 MW/50 MWh in size. Image by: Eesti Energia. The state-owned ...

Dutch startup LionVolt has acquired AMTE Power's battery cell production line in Scotland. It says it will use the assets for pilot production of its 3D solid-state thin-film batteries.

They recently entered a partnership with QuantumScape, a solid-state battery technology company, to the tune of \$300 million, to develop electric vehicles powered by solid-state batteries...
