

South sudan dedicated energy storage battery

Will South Sudan build a hydropower project near Juba?

The utility is looking for investors to build a 120-megawatt hydropower project near Juba, which could cost \$490 million to construct over five years. South Sudan's government says it also plans to invest in the 1,080-megawatt Grand Fula project proposed near the Ugandan border, though how and when it would do so is unclear.

Does Juba still have a power supply?

For now, however, most of Juba's residents are still using their own power supplies to run refrigerators or charge computers. The utility dismantled the old grid, and the upgraded system is proceeding slowly in phases. Deng said his own home likely won't be connected for several more months.

What is Ezra doing in South Sudan?

The utility is working to establish or extend interconnections with Sudan, Uganda, and Ethiopia to reach into South Sudan's interior. At the same time, the young country is adding its own generation. Late last year, Ezra Group opened a 33-megawatt oil-fired power plant, which will use scrubbers to reduce air pollution.

However, as reported by Energy-Storage.news as the first phase of the planned AU\$3 billion (US\$2.01 billion) Goyder South Project won planning approval from authorities in 2021, subsequent capacity additions ...

The company's announcement was made at the 4th annual staging of India Energy Storage Alliance's (IESA's) Stationary Energy Storage Conference in New Delhi, which Good Enough Energy co-hosted with the ...
